

Oddness

Banging your head against a wall uses 150 calories an hour.
(Don't try this at home, maybe at work.)

If you yelled for 8 years, 7 months and 6 days you would have produced enough sound energy to heat one cup of coffee. (Hardly seems worth it.)

If you farted consistently for 6 years and 9 months, enough gas is produced to create the energy of an atomic bomb. (Now that's more like it!)

A cockroach will live nine days without its head before it starves to death.
